Hi

Lily I am by the name called Sonia.
How are you over there together with your family?
and how is the weather in England?

Hopping that you are ^{all} okay.

Seems to me I am also okay. I am a primary seven girl in Agwayugi Primary School, ~~the~~ Amuru district. So which class are you in?

Every morning I go to school on foot together with my friend and the distance from home to school is four kilometres.

So we wake up very early in the morning in order to reach at school in time.

In our school we learn a lots of subjects such as Mathematics, English, science, social studies, Art and technology, Religious education and Physical education.

Our school begins at 2:00 am and ends at 4:00 pm.

After school I go back home, and at home I like fetching water, cooking food after that I bath my body and I begin concentrating in reading my books. My favourite game at school is debate.

At our school we learn English and Kiswahili languages.

I am pray hard that you must come if possible because you know, face to face is better than letter. We shall discuss alot if you come.

Thank's from you loving friend

Sonia.
